SLOVAK UNIVERSITY OF AGRICULTURE IN NITRA
SUA: Facts and Figures

Slovak University of Agriculture (SUA) is the only agricultural university in Slovakia

Number of students : 10,000
Alumni: 70,000
Academics: 571
Research and technical staff: 651
More than 100 scientific events organised with a focus on agriculture a year

Study programmes:
Bachelor: 38
Master: 29
PhD: 20
Study programmes in English: 20

• SUA is one of Slovakia’s leading universities in the period since it was founded in 1952.

• SUA is consistently rated in the top group for the high quality of its teaching and research in the Slovak Republic.

• SUA has a strong tradition of working in collaboration with business and industry and playing an active role in economic regeneration.
ECTS Label was awarded to SUA by the European Commission as the first university in Slovakia on October 5, 2010
SUA: Structure

SUA in Nitra is divided into:

- Faculties
- Teaching and Research Facilities
- Administrative Departments
- Information Centres
- Special Purpose Facilities
SUA: Faculties

- Faculty of Agrobiology and Food Resources
- Faculty of Biotechnology and Food Sciences
- Faculty of Economics and Management
- Faculty of European Studies and Regional Development
- Faculty of Horticulture and Landscape Engineering
- Faculty of Engineering
Faculty of Agrobiology and Food Resources

The faculty prepares specialists in the development, utilization, protection and recovery of food sources of plant and animal origin through the development and application of biological, ecological, technical and economic principles of functionality and knowledge of sustainable agro-ecosystems.

fapz.uniag.sk
The faculty deals with knowing, understanding and managing biological, technological and economic sciences specializing in modern processes of food production.
The principal mission of the faculty is to prepare experts for agricultural and food processing industries as well as cooperating industries and to educate them in the areas of management, economics, accountancy and finance, information and communication technologies, international trade, foreign languages and regional development.

fem.uniag.sk
The faculty guarantees training of professionals capable of processing the strategic objectives, contributing to the community development, especially in rural environment in cooperation with the governing bodies of public administration, and succeeding in advisory and projective organizations, which prepare projects within the EU programmes.
The faculty’s priority is education of professionals oriented on horticultural production, fruit growing, viticulture, vegetable and flowers, garden design and landscaping.

fzki.uniag.sk
The main mission of the faculty is to train skilled operating engineers and graduate engineers. The faculty does not only rely on an experienced team of teachers, but also on cooperation with many other educational and research institutions in Slovakia and abroad.
SUA: Teaching and Research Facilities

University Farm, Ltd. Kolíňany

Botanical Garden

Slovak Agricultural Library

Publishing house of SUA

University Sports Centre

ICT Centre

Agricultural Experts’ Institute
University Farm and practical education

• Exclusive space for verification of scientific knowledge in agricultural practices at SUA

• Farm area of 2,127 hectares

• One of the leading agricultural entities in Slovakia as for production and economic results

• Demonstrates a high level of management, including equipment with modern technology in crop production using elements of precise agriculture and advanced technologies in animal husbandry
Botanical Garden

- It serves as an educational and research facility.
- It has an area of 28 hectares.
- Its collections include numerous species and cultivated tropical, subtropical and temperate plants.
- A part of the garden is also a pomological collection with hundreds of fruit varieties, sample book of ampelography and vegetable sample book.
- The botanical garden cooperates with 350 botanical gardens and arboreta around the world in free exchange of seed material.
AgroBioTech is a new research center opened at the premises of SUA in Nitra in 2015 and involving 30 laboratories.

**Its mission consists of:**
- popularization of the science and research
- transfer of innovation, technology and knowledge
- cooperation with SMEs and institutions at European level in the field of technology transfer

**Orientation of AgroBioTech:**
- applied research in experimental food technology and human nutrition
- applied research in experimental biotechnology
- applied research in Agrobiology and crop production
- applied research in bioenergy and economic studies

**Web:**
http://www.agrobiotech.sk/en/home/
Centres of Excellence

SUA has 3 Centres of Excellence:

- Centre of Excellence for Agrobiodiversity Conservation and Use (ECOVA and ECOVA plus)
- Centre of Excellence for Integrated River Basin Management in Changing Conditions (CEIMP)
- Centre of Excellence for White-Green Biotechnology (CEBZB)
International Cooperation and Integration

SUA in Nitra is a member of:

- **VUA** (Visegrad University Association)
- **EUA** (European University Association)
- **ASECU** (Association of Economic Universities of South and Eastern Europe and the Black Sea Region)
- **IAU** (International Association of Universities)
- **DRC** (Danube Rector’s Conference)
- **ICA and CASEE** (Association for European Life Science Universities)
- **GCHERA** (Global Confederation of Higher Education Associations for Agricultural and Life Sciences)
